

Architecture

Start your journey
and take the first step
to your future as a
positive action leader.

Great leaders and better people

With over 55 years of experience, the Universidad Anáhuac México offers comprehensive instruction with an international, entrepreneurial, and innovative vision to be the type of leader who will bring a positive change to society.

International certifications

Certified by the Federation of Private Institutions of Higher Education (Federación de Instituciones Particulares de la Educación Superior) for meeting the highest quality level, and by the National Association of Universities and Institutions of Higher Education (Asociación Nacional de Universidades e Instituciones de Educación Superior).

We are a two-campus university

At Anáhuac México, you can choose between two campuses in Mexico City which are strategically located in areas of business and residential development.

- Free shuttle service between the two campuses.
- There is a total of 93.9 acres between both campuses with cutting-edge laboratories and facilities.

Faculty of Architecture

Architects imagine,
design and create
buildings solving
and improving
human habitat
with aesthetic and
sustainable solutions.

Competitive advantages

Specialized Library

Our Material Library, one of a kind in Latin America, allows students to consult the most innovative and sustainable materials worldwide. We also have a library with more than 12,000 books and magazines on Architecture.

Lectures

The weekly conferences cycle bring our community closer to different visions on architecture, arts, design and contemporary culture, transforming its own approach to architectural design.

Associations

We are members of the following associations:

- Asociación de Instituciones de Enseñanza de la Arquitectura, ASINEA (Association of Architecture Teaching Institutions)
- Association of Collegiate Schools of Architecture (ACSA)

Facilities

- FabLab (digital fabrication and technological development laboratory)
- Materials Library for consulting innovative materials worldwide.
- Architecture and Urban Planning Library.

Certifications

Our program is endorsed by the Acreditadora Nacional de Programas de Arquitectura y Disciplinas del Espacio Habitable, ANPADEH (National Rating Organism for Architecture Programs and Disciplines for the Living Space), which signed the Canberra Agreement. In addition, our graduates have obtained outstanding results in the Examen General de Egreso de Licenciatura, EGEL (National General Examination).

FABLAB MEXICO

Our digital manufacturing Fablab affiliated to the Massachusetts Institute of Technology (MIT) Network, the first FabLab in Mexico, enables students to laser cutting, 3D printers, robots, CNC Router, among others.
